

EASY CARE FINDER

The four kinds of place

The four kinds of place
and which one fits.

I am not going to
pitch you anything.

THE TEST

Useful whether
we work
together or not.

Let me guess where you are.

Tell me if I am wrong.

Days

not months.

SO YOU HAVE BEEN

**Calling
places**

One at a time.

Waiting

On people to call
you back.

**Handing
over**

Your number,
before anyone
tells you
anything.

Every site wants
your number
first.

Before it will tell you
anything at all.

You have not done
anything wrong.

You are not behind.

The tools you were
handed are bad.

You are not missing something obvious.

A photograph of a wooden table with a map, a cup, and a blanket. The map is spread out on the table, showing various geographical features and colors. A white cup is placed on the table near the map. A dark green blanket is draped over the edge of the table. The background is a plain wall with a window showing a bright outdoor scene.

The map is what is broken.

WHAT YOU FIND ONLINE

The places that pay to be found.

Directories can only show you the homes inside their paid network.

WHAT IS ACTUALLY LICENSED NEAR YOU

A longer list.

And a lot of it looks nothing like what you are picturing.

It is not the options near you.

It is the advertising near
you.

HONESTLY, INCLUDING THE ONES I DO NOT PLACE PEOPLE INTO

All four kinds.

ONE

Help that comes to the house

ONE

Help that comes to the house

Nobody moves.

WHAT IS GOOD ABOUT IT

She stays in her own home.

With her own things.

WHERE IT STOPS WORKING

It is help during the hours
somebody is there.

It is the hours in between. The
nights especially.

WHO IT SUITS

Somebody managing, mostly, who needs a hand rather than
someone around.

TWO

An apartment where older people live

TWO

An apartment where older people live

Independent, but not alone
all day.

WHAT IS GOOD ABOUT IT

She is independent.

She is not alone all day.

WHERE IT STOPS WORKING

The hands-on help is limited.

Getting up, washed, to bed.
Generally not set up for that.

WHO IT SUITS

Somebody still fairly independent who mostly needs company and fewer stairs.

THREE

The large community

THREE

The large community

The one most people
picture.

WHAT IS GOOD ABOUT IT

There is always
somebody there.

For some families
it is genuinely the
right answer.

If she is social,
that matters.

WHERE IT STOPS WORKING

It is big.

How she does depends on which building, and who is working.

WHO IT SUITS

Somebody sociable who would rather be somewhere busy than somewhere quiet.

THE QUESTION ALMOST NOBODY ASKS ON A TOUR

How many residents does one caregiver have?

Ask it about the night shift, not about the tour.

AND THE SECOND THING SIZE DOES

People move on.

The person who learned her
routine may not be the person
on shift next month.

**The small things travel
worst.**

That she takes her tea weak.
That she will not say when she
is cold.

A photograph of a single-story house with a brown roof and light-colored siding. A large, mature tree with green leaves stands in the foreground, partially obscuring the house. The house has a white garage door and a small front porch. The scene is set in a suburban neighborhood with other houses and trees visible in the background.

FOUR

The small home

FOUR

The small home

An ordinary house on an
ordinary street.

WHAT IS GOOD ABOUT IT

Six people means
somebody
notifies.

Notifies she did
not finish her
breakfast.

Notifies she is off,
before it is a
problem.

WHERE IT STOPS WORKING

There is less going on.

If she wants a calendar of activities, take that seriously.

WHO IT SUITS

Somebody who would rather be somewhere quiet and properly noticed than somewhere busy and be one of a hundred.

Ask the same question here.

A licensed small home has six residents.

At most. That part is not a promise, it is the licence.

WHAT THAT ACTUALLY LOOKS LIKE

They know what
she had for lunch.

They know she
does not like her
food spicy.

They notice she is
off, before it
becomes a
problem.

None of that is on a website. It is what a small number of people
does to attention.

6

people

instead of

100

people

That is the arithmetic.

Why you have never heard of them.

BECAUSE

**They do not
advertise.**

**They fill by
word of
mouth.**

A nurse who
knows the owner.
A neighbour.
Somebody's
daughter.

**Directories
list who pays.**

So they are never
on the list.

Not hidden.

Just never advertised.

A large part of what is available near you is invisible from a search bar.

The thing no website can tell you.

EVEN WITH THE FULL LIST, IT WOULD NOT TELL YOU

What a place is like at four in the afternoon on a Tuesday.

Whether someone sits with her at breakfast, or puts the plate down and walks off.

Whether it is quiet because it is calm, or quiet because nobody is talking to anybody.

That is not on a website.

It comes from somebody
having stood in the
kitchen.

THE AWKWARD PARTS, SAID OUT LOUD

Who I am, and how I get
paid.

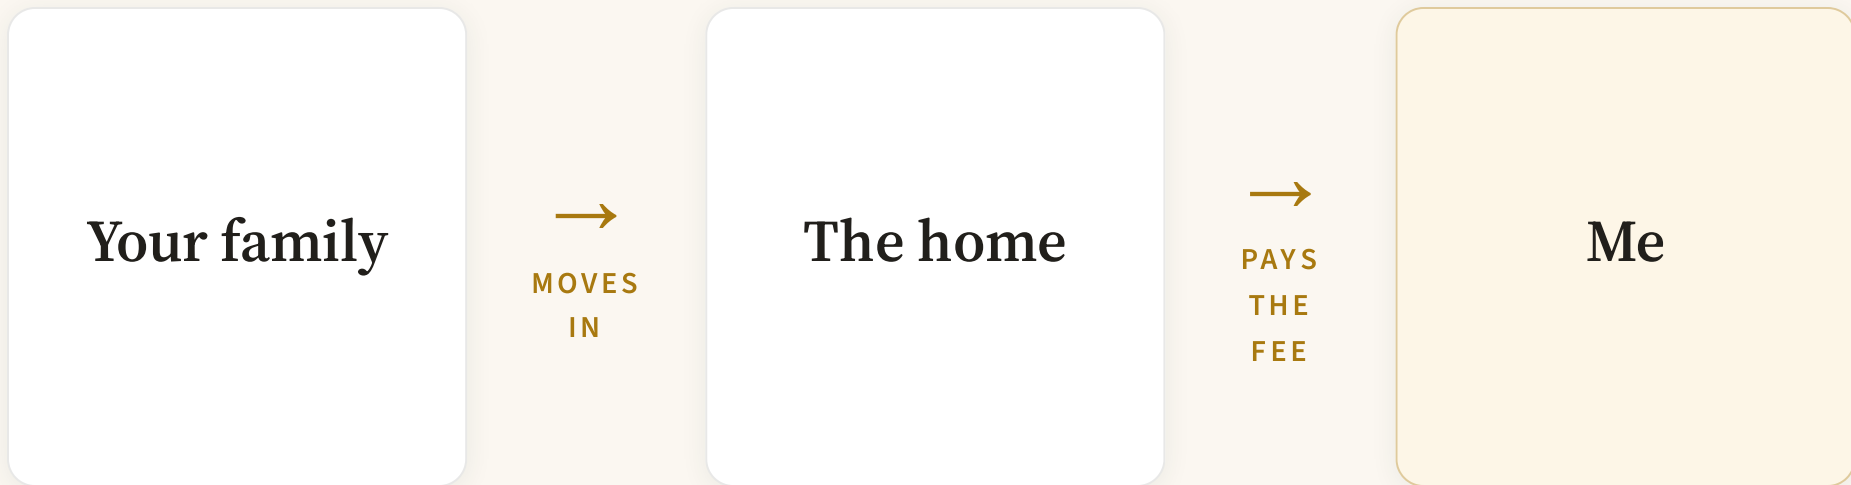

PHOTOGRAPH REQUIRED

Singh in the doorway of a home
he owns

I have owned
care homes
myself.

So I know these places from
the inside, and which
questions get a straight
answer on a tour.

HOW THE MONEY MOVES

You pay nothing. Not now, not later.

A care home pays the referral fee. Easy Care Finder never charges the family.

I own homes, and I get paid by homes.

So I am exactly the person
you should be a little skeptical of.

I will tell you when one of
mine is not right for her.

What our call actually does.

ONE

**You tell me
about her.**

Her days, her
nights, what a
home would need
to be set up for,
and who she
actually is.

TWO

I go and look.

I come back with
two or three. Not
a list of
everything.

THREE

**We go and
see them.**

I come with you,
and I tell you
honestly what I
think of each one.
Including the
ones I own.

And the catch, since you are waiting for one.

Nothing.

No fee at any point. Nothing to sign to have the conversation.

Sacramento and Placer County only.

If you are outside those two I will tell you straight rather than guess.

And if you decide she is staying home for now, that is a fine outcome. I will still tell you what I would do.

THREE QUICK THINGS AND I WILL LET YOU GO

ONE

**Save my
number.**

The one on this
page. That is what
texts you and
what rings when
we talk.

TWO

**Reply to my
text.**

One word is
plenty.

THREE

**Be there if
you can.**

I will have gone
through what is
open before I call,
so I will have
something real to
tell you.

Talk soon.

If something comes up, text me. It is me who answers.
